

Bumby.

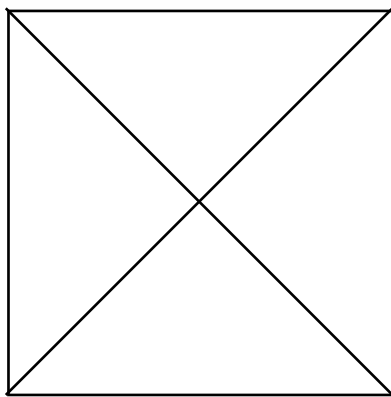

A better, cheaper, easier, lazier, more sustainable way to approach farm fresh produce.

Explainer Video

As you drive home, you realize you (once again) did not budget time to get groceries. Sigh. But - what's this? - you come home to find a box of farm fresh produce just hanging out on your doorstep. Maybe you're just lucky and the food fairy took mercy on you. Or maybe, you just forgot that you treated yourself to a Bumby subscription and from now on you can skip the trip to the grocery store and still pat yourself on the back for being able to make farm fresh meals at home. And that's not even the best part. Because each Bumby Box is its own compostable compost bin, so any of the food waste you make in the two weeks before your next Bumby delivery can be thrown in and easily disposed of in a way that is sustainable for the planet. So not only do you get to be lazy, healthy, AND cheap with your food spending, but you also are helping out Mama Earth.

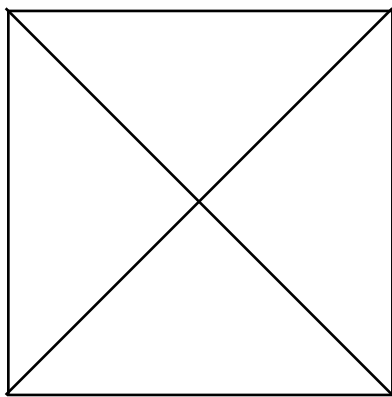

Not to toot our own horn, but we think that's kind of rad.

GET STARTED. WHAT ARE YOU WAITING FOR?

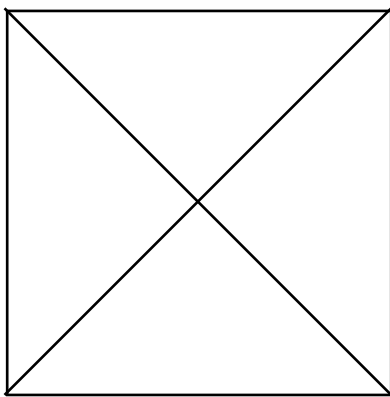

Farm.

There's only one middle man: us. Otherwise, all Bumby produce goes straight from the farm to your table.

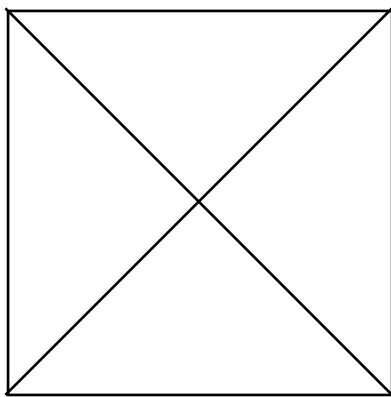

Fresh.

Freshliness is next to Godliness... or something like that. So we deliver fresh produce to you every two weeks, no grocery store required.

Easy.

Bumby isn't a chore. It's an easy (and cheap!) way to do good and eat good. You pay \$20 and we send you quality, healthy produce. That was easy.

Eco-friendly.

Composting is scary no longer. Simply throw your food waste back in your resealable Bumby Box and leave it out on the day of your next delivery. Feels good.

"Bumby made composting extremely easy for me... I had always struggled with finding a compost bin, but now that problem is gone!"

"I appreciate having fresh vegetables that come from local farms. I feel better about what I'm eating and I also feel good about helping the environment."

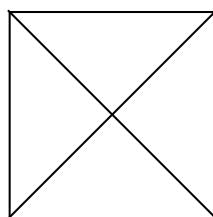

"I used to love grocery shopping, that is until I learned about the chemicals they add to keep out of season vegetables fresh. With Bumby, I don't have to worry about that anymore, and making the switch was easy!"

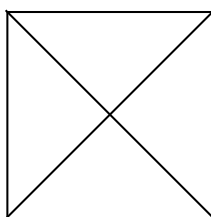

"I think Bumby is great for any kind of household. It's one less thing I have to worry about and I like that I don't have to pay an arm and a leg to eat better and do better for the planet."

We'd Love to Hear Your Thoughts!

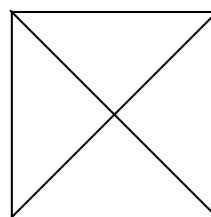

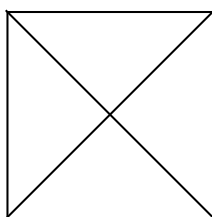

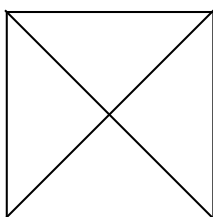

Call or email if you have any tips on how we can make Bumby the best it can be for you! And, of course, if you love us please give us a share! We (and Mama Earth) would appreciate it.
